ADIR NYU Center for the Study of Antisemitism

GAME CHANGERS ADIR SUMMIT 2025

CTRL

Civility – Tolerance – Respect – Learning

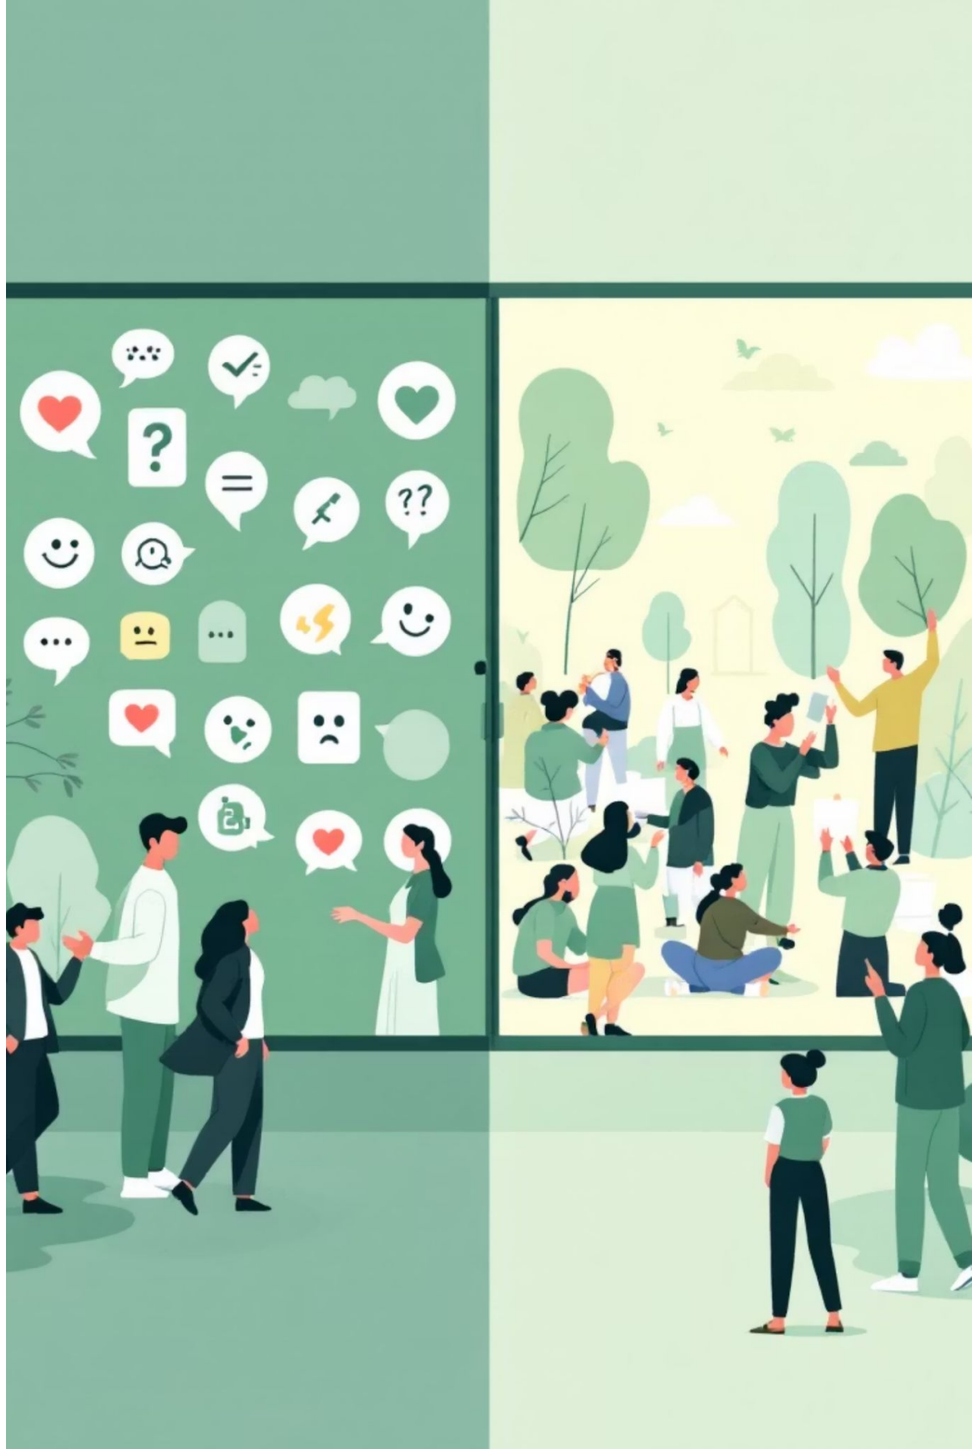

Gaming Chat Moderation and Education System

Hackathon Proposal by Team CTRL (#4)

The Problem:

Hate in Gaming Communities

- Increased hate impacts society
- Decreases user base and revenue
- Negative behavior and engagement being rewarded ex. Reddit
- Banning increases cycle of extremism

Target Audience

Communities of Playtika

Made with GAMMA

Core Solution Features

1

Vibe Score: Gamification and Progression

- Points and rewards for people who engage positively
- Vibes highlight friendly players

2

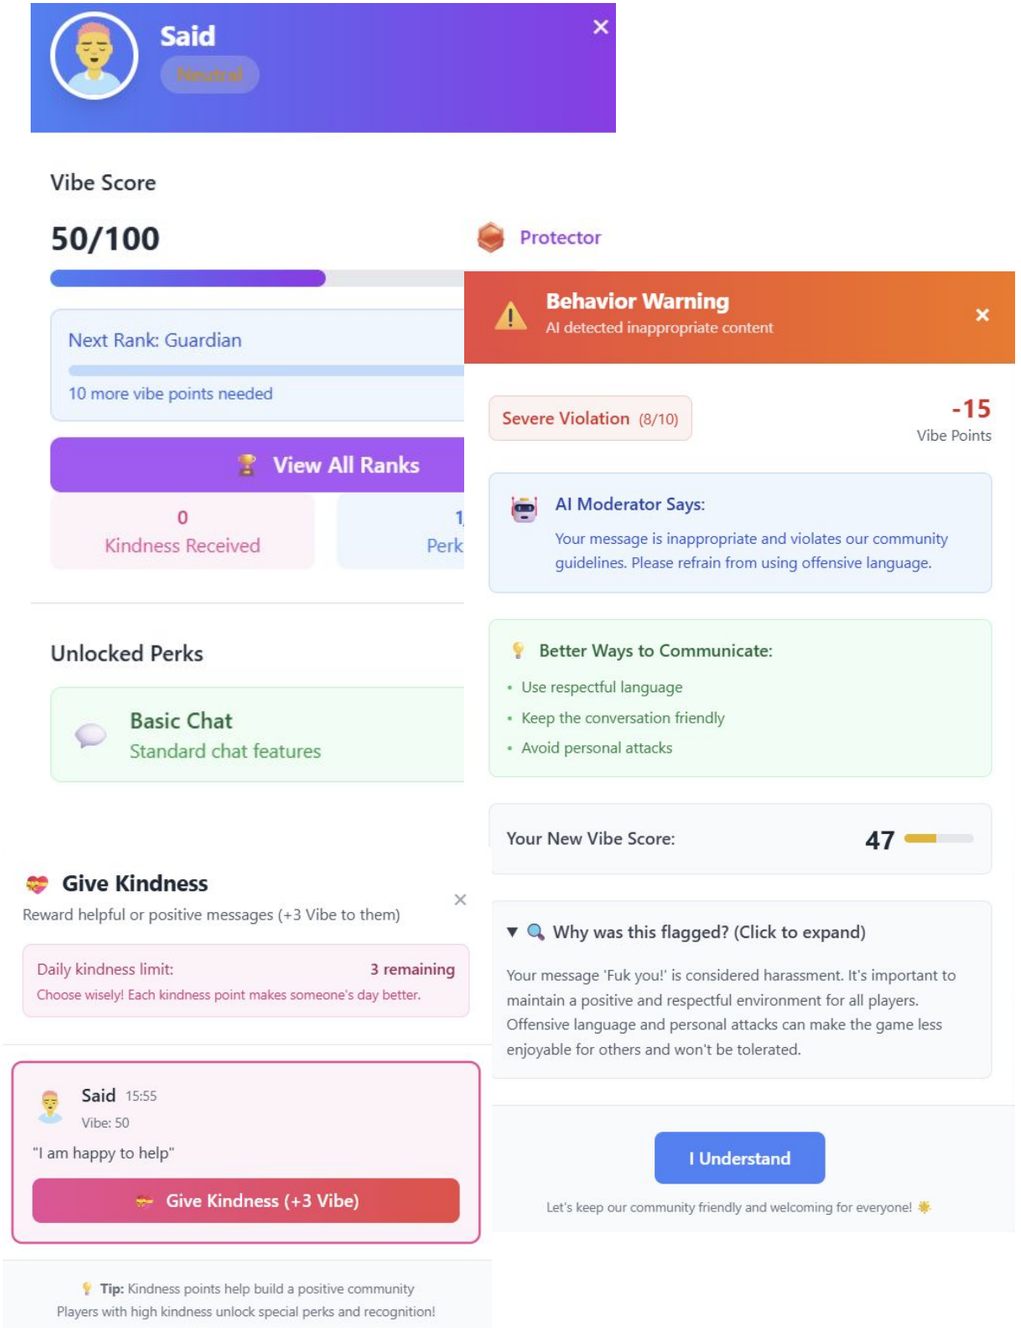

Kindness Points: User Contribution

- Reward other users for engaging positively
- Encourage ownership and participation in the community

3

AI Moderation: Educational Components

- AI-generated context-specific explanations
- Interactive learning modules and responses
- Encourage dialogue and improvement

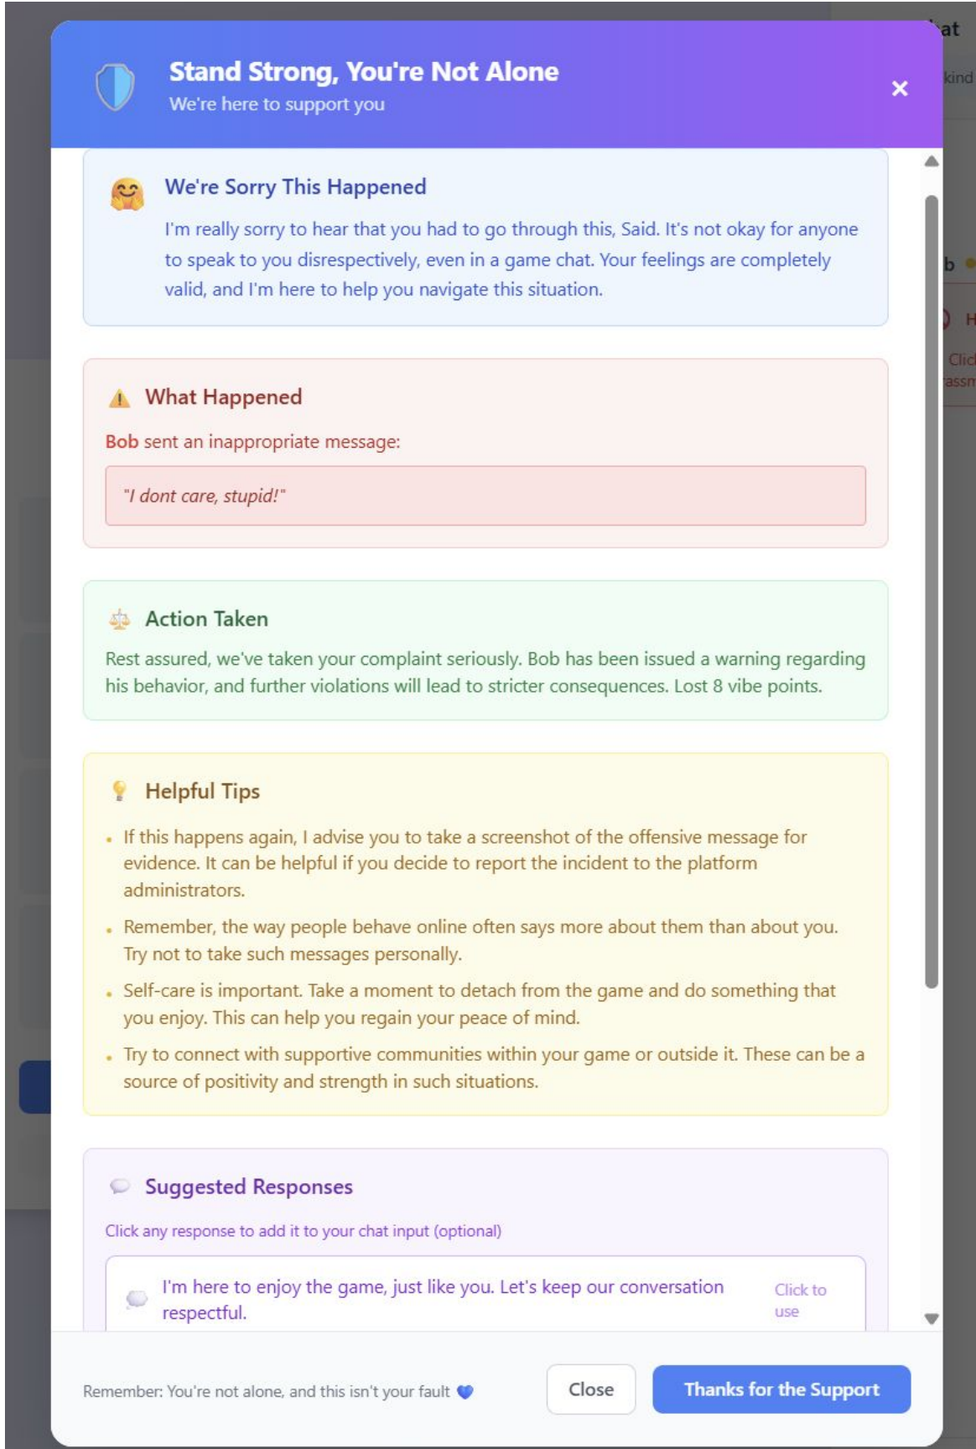

Made with GAMMA

Educational System

System Expansion:

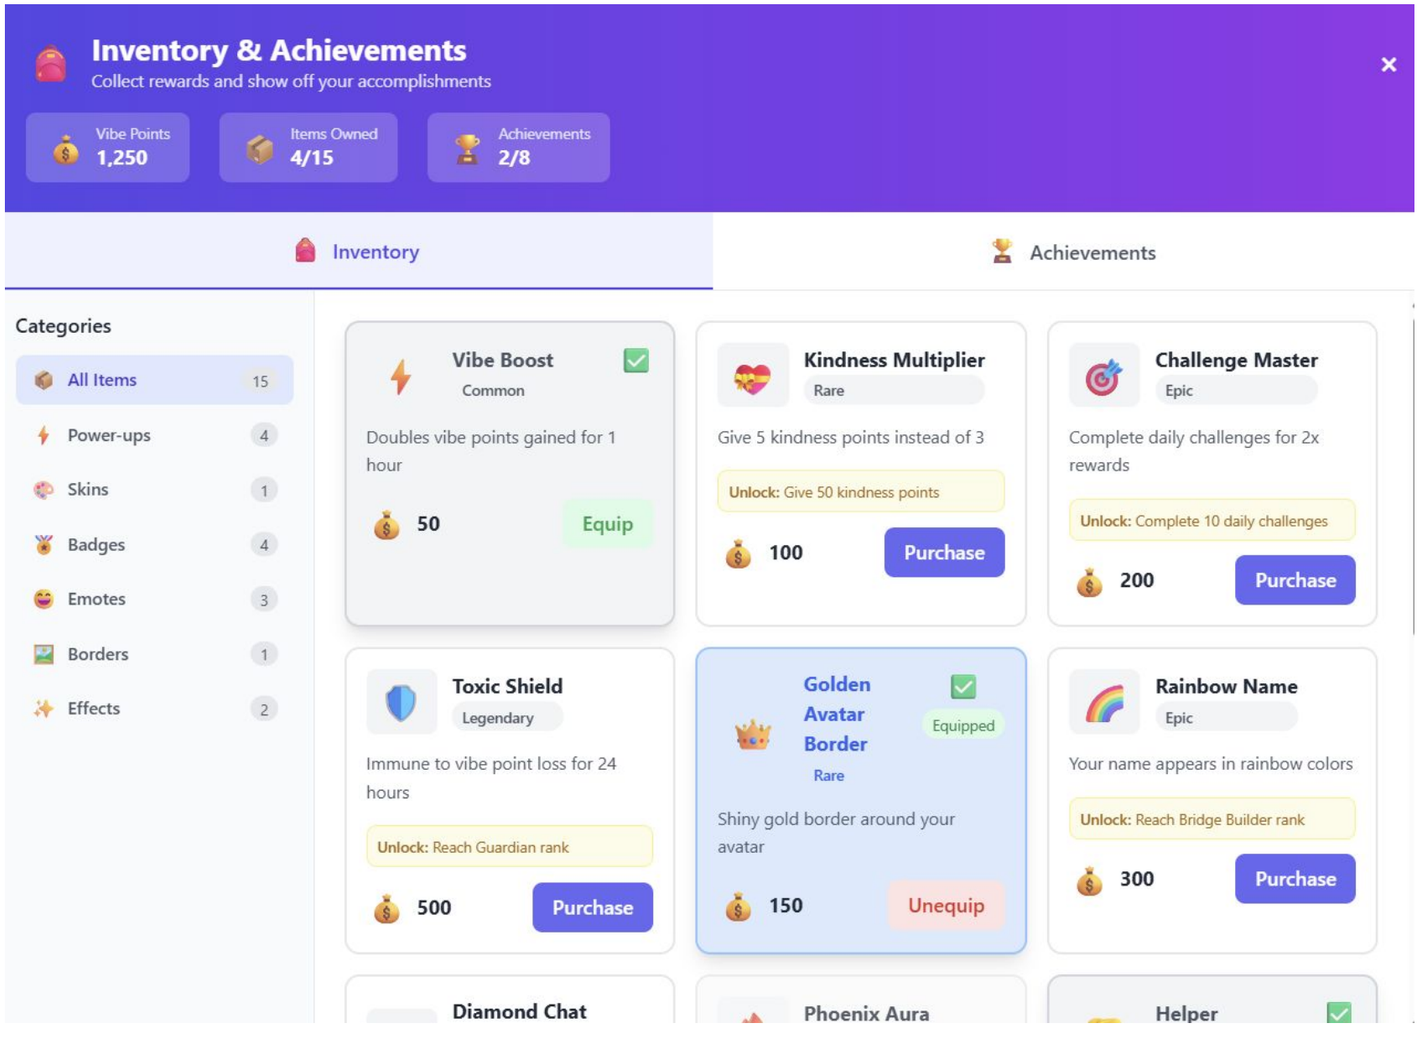

- Response Types
  - **Protect Yourself:** block or report user, seek support
  - **Stand Up for Yourself:** assert boundaries, call out behavior
  - **Educate Others:** share knowledge about why content is harmful
  - **Community-Building:** foster positive discussion and conclusion

- Behavior Categories
  - Negativity and Toxicity
  - Hateful Rhetoric and Stereotypes
  - Dog-whistles

Gamification & Progression System

Rewards & Redemption

The Business Case

Business Logic

- User Retention
- Cost Reduction
- Brand Enhancement

Expansion Potential

- Technological Flexibility
- Broader Reach
- Partnerships

Made with GAMMA

Ready to build safer communities?

Future Applications

- implement advanced AI detection
- add new user capabilities
- train new models
- upgrade for scalability
- implement data-driven feedback
- run early market tests

Today's Challenge: Hate increasing in online communities in clever ways.

The Next Frontier: Increased growth and human workarounds.

Future Tech / Moonshot:

- Advanced AI and natural language tools
- Real-time behavior prediction
- Cross-platform analytics

Made with GAMMA

Our world is changing, but our core values– civility, tolerance, respect, and learning– don’t have to.
